RE: Dimensional Measurement Accreditation

ATTN: Mr. Sven Bley

Congratulations! I am pleased to announce that Made to Measure LLC has met the requirements of Delphi Electronics & Safety's Dimensional Measurement Accreditation Program.

Full Approval is granted to Made to Measure LLC to perform **dimensional inspections** on any part manufactured by Delphi E&S or its suppliers. The dimensional data you supply will now be used by Delphi Electronics & Safety for the purpose of granting dimensional part approval.

Since you are now an accredited supplier, you will be required to submit **all** your dimensional data on PPAP form CFG-1003 or equivalent. If you have any questions about the form(s) or the DMA program, please contact your Delphi E&S Buyer or Jorge Flores at (915) 612-6874.

Your management and staff can take pride in this important achievement.

Sincerely yours,

Jorge Flores
DMA-MLA Coordinator / Component Engineer
Delphi Electronics & Safety
